Scotland of Mary Magdalene and the Knight's Templar

Plus! Add on 5 days and 4 nights in England!

Join Dr. Meg, and Sir Hugh Gilbert on a unique journey, not only of discovery of the ethereal light of Scotland, where we will visit places well known and some which have been veiled in mist to others until now, where we will sit in conversation with the keepers of the Ancient Wisdom and secrets, but also where your collective energy will be directed to assisting the sacred feminine long stored in this universal land to its timely reawakening and where our individual awareness will be amplified forever.

"The World's fascination and love affair with Scotland and things Scottish goes very deep, mainly because Scotland exudes a mystique that is difficult to penetrate. Scotland represents the unquenchable thirst of humanity for personal freedom, and for an experience of transcendent passion that resides in the soul. There exists a deeprootedness to Nature and the Land that is the pulse of Scotland, while, at the same time, Scotland represents a gateway into the realms of Fairy and Spirit, a place where the physical and non physical keep a comfortable company with one another. From the times of Early Christianity, Scotland has endured much turmoil and deprivation. Simultaneously, Scotland was also a powerful magnet for the esoteric priests of the Druids, along with the Evangelical Christian monks, fresh from Palestine, Rome and Gaul. There is strong evidence, recently unearthed, that there are compelling ties between the Holy Family of Yeshua, the Christ, and the secret initiatory orders that existed in Central Scotland, before, during and after the events that unfolded in Israel! These connections run all the way through the Western Isles of Lewis, Mull, Iona and Arran. These orders: Christian, Druid, Culdee, Masonic and Knights Templar, knew of the powerful ley lines and vortices that crisscrossed the Land in a purposeful pattern, and utilized them in their rituals for the uplifting of humanity's consciousness and the healing of the World Tree.

Scotland is still mostly an undiscovered treasure. We feel strongly that Scotland will play a leading role in the awakening of humanity to its true spiritual nature, and this will in turn lead many to a deeper harmony with Nature and natural ways of living. Scotland represents an individualistic sovereignty that encourages and respects the sovereignty of others. This land has been invaded many times, but no one has held it successfully. Like our eternal self, Scotland is free!" ... Printed with permission of PureDivineLove1999 2007. www.puredivinelove.com
